Manpower Supply

Our services in this category are wide and well organized. We are having the manpower recruitments division and through this we are doing the placement for the professionals like Engineers, Technicians, Supervisors, Foremen, Skilled Labors and Helpers etc. These qualified professionals are from different categories like Civil, Electrical, electronics & Communications, Instrumentation, Mechanical, Automobile, Electro-Mechanical, Environmental, Safety, Logistics etc. Other than the above we usually to supply trained drivers, painters, cleaners & helpers etc also.

We offer a security solutions provider to enforce rules and secure client's working environment against danger, damage, loss and crime. To protect as well client's property by maintaining a high visibility presence deter illegal and inappropriate actions, observing (either directly, through patrols, or by watching alarm systems or video cameras) for sign of crime or discover then taking action and reporting any incidents and emergency services as appropriate. We do provide services that are technical in conjunctions with various subcontractors to achieve client highest performance approval.

Soil Supply & Back Filling

SHAMUKH AL-BARZ Gen. Cont. Co. supplies soil in any quantity by truck loads in short notice. Sometimes the soil at the construction may be of poor quantity and the need for a better quantity of soil like marl areas, which need to a soils supplier of Ramiz expertise. Whatever may be the need for you in soil requirements? Just ring us and shall be happy to provide you with the soil required.

Soil Back Filling process of taking the excess soil from one part of the construction area and dumping it in another part of the same construction area. This is done mainly to make the whole surface area of the construction site even and most suitable for undertaking the construction. SHAMUKH AL-BARZ Gen. Cont. Co. specialized in soil back filling for all types of soil for the industrial, Construction, residential purpose anywhere of soil as per the client's requirement.

Construction & Building

Our primary attention is given to safety considerations in all works performed. This involves provision of safe working conditions, development and use of safe working procedures and proper training programs, it is recognized that a safe environment can be established and sustained only through a united efforts by all employees and the assistance of each person is solicited. One key initiative is the distribution of Turnaround Daily safety bulletins. We've introduced new activities to keep safety top of mind all day every day.

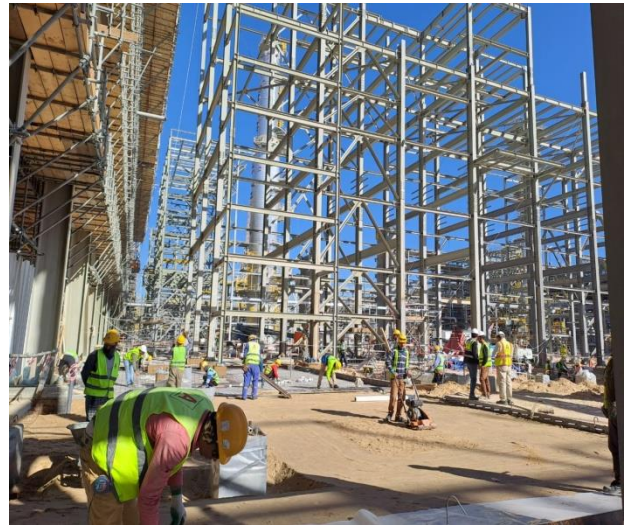

Guided by the mission of Vision 2030, we also recognize the sustainability challenges ahead and are working toward growing our capabilities in both Nuclear and Renewable energy sectors as well.

Infrastructure

Our primary attention is given to safety considerations in all works performed. This involves provision of safe working conditions, development and use of safe working procedures and proper training programs, it is recognized that a safe environment can be established and sustained only through a united efforts by all employees and the assistance of each person is solicited. One key initiative is the distribution of Turnaround Daily safety bulletins. We've introduced new activities to keep safety top of mind all day every day

Guided by the mission of Vision 2030, we also recognize the sustainability challenges ahead and are working toward growing our capabilities in both Nuclear and Renewable energy sectors as well.
